REBIRD

1. During the past fortnight there have come to our attention two developments which bear directly upon the Tilestone Project.
2. Tirralirra has advised that he is accepting Colonel SOVA's invitation to visit him in Germany and that he (Tirralirra) intends to depart from Sweden on 10 August in order to claim participation in the Liberal International Congress as a cover for his trip. He has also advised that Colonel SOVA has promised to forward funds to cover his expenses via his American contacts. We have to date received no instructions from Munich to furnish him funds for this pending trip. Tirralirra is still undecided as to whether or not he intends to remain in Sweden for the purpose of continuing his present activities. As previously advised he is making no commitment prior to his conference with Colonel SOVA.
3. The other development concerns the Estonian segment of the Tilestone project. [] advises that NVALD, who was landed with the original Estonian expedition, has now succeeded in establishing contact with the Estonian who was landed with Tilestone-Charlie. This Estonian is operationally identified as Ermo. No other details are known.
4. Other information, including the text of W/T messages and other related operational data, has previously been reported in separate dispatches.
